ENGLISH. SOME LECTURES MAY BE SIMULTANEOUSLY TRANSLATED FROM ITALIAN INTO ENGLISH

THE OBJECTIVE

New geographies and territorial assets, a multitude of actors and environmental issues guides designers to go beyond buildings and produce **new territorial visions**. The urban transformation processes and the way economic, human, social and environmental resources are used, call for more complex competences and cooperation between different actors.

The Master's objective is to enable professionals to reflect on public space metamorphosis within contemporary urban context to re-design spaces, manage complex architectural and territorial issues using innovative analysis tools and design methods with a particular focus on planning, landscape design, environmental sustainability and renewable energy.

THE AUDIENCE

MUVAD addresses young professionals as well as young graduates and final year university students in Urban, Architectural, Economics, Human Science, Social and Communication disciplines interested in developing a personal taste and approach and improving their architectural sensitivity according to urban transformation needs.

THE FUTURE

A range of different career or re-positioning opportunities are envisaged at local, national and international level: such as Project Manager, Urban Designer, Freelance, Planner, Designer, Advisor or Consultant in Architectural Design Studios, Engineering Offices, Urban Management Offices, Territorial Development Agencies, Public Planning Administration Departments, Real Estate Companies, Design Offices.
