Fine Arts course dates	Starting date every Monday, the whole year round. All courses are extendable.						
DRAWING AND PAINTING	During the drawing course the students will be introduced to the use of various materials such as: charcoal, sanguine and pencil. With regard to painting: studies include the use of tempera, oil and acrylic colors. Using these various materials they will learn to interpret the form of still life and figure drawings with live models.						
PAINTING WITH ANCIENT TECHNIQUES	The course introduces students to the painting techniques practised between 1300 and 1500 and to the study of the major works of the period from Giotto to Leonardo and Michelangelo. The knowledge gained will be put into practice by the copying of paintings so that the student may learn the fundamental techniques used, such as egg tempera, gold leaf, up to oil colors.						
PAINTING WITH CONTEMPORARY TECHNIQUES	This course is designed to teach students to use the new language, through learning how to use new support materials (plastic, various canvases, wood, metal) and painting techniques, ranging from the old traditional colors to the use of mixed techniques (such as color applied with sponges, spatulas and rollers).						
FASHION DESIGN	The purpose of the course is to introduce students to the world of fashion. During the course, the students will plan their own personal fashion collections, taking inspiration from art, history, various cultures, environments, and present and past events. The students will then apply the studied materials to the planning of their personal portfolios. Students will also study the flux of fashion trends and tendencies.						
SCULPTURE	This course allows the student to choose between a wide variety of techniques and media, including clay modeling, marble sculpture and wood cut. According to the student's level of study and course selection, the student may choose to concentrate on a specific technique or may choose to diversify techniques and materials. At the beginning of the course there will be an introduction to functional drawing for sculpture used in connection with the various techniques
