<b>Short description</b>	<p>Italian history books are often full of images of entire families, mass-moving from our country to foreign ones, hoping to find a welcoming city where to work and raise their children.</p> <p>We all remember the great migrations to North America (United States and Canada), South America (Brazil, Argentina and Venezuela) and the faraway Australia. Many families also moved to Europe, to neighbouring Switzerland or Germany and the United Kingdom.</p> <p>To still 'feel at home', Italian emigrants went on talking to their children and descendants in their mother tongue, from the dialect to the modern language, telling them stories and traditions about their place of origin.</p> <p>The course «Discover your Origins» aims at offering the opportunity to the descendants of Italian emigrants abroad to deepen the Italian language and culture, the same their parents, grandparents, uncles have already passed them down, as well as the possibility to visit the places of origin of their ancestors.</p>
